## BLADE RUNNERS

BlackEdge®

More Bite + More Glide = More Power

### Exceptional Hardness

With its surface being 3x harder than steel, the BlackEdge coating provides skaters with:

- > explosive starts and superior maneuverability;
- > sharper turns and quicker stops;
- > longer lasting edge.

### High Performance Surface

On contact with the ice, the BlackEdge coating creates a physical reaction that provides the skater with:

- > reduced friction;
- > more speed.

Developed for performance, the BlackEdge coating helps players maximize their power to:

- > get to the puck first;
- > make a difference in the game.

### HIGH-PERFORMANCE CARBON

The BlackEdge team, in collaboration with TSLab, has developed a real revolution in the hockey world: a skate runner coated in carbon that offers more bite and more glide. The BlackEdge runner provides the skater more power to achieve the desired performance. It is setting new standards in hockey performance. Let the revolution begin.

BlackEdge skate runners are shipped in a protective hard-shell, retail friendly, plastic package.

### A revolution in skate runners
